

OEX LED

WORKLIGHT RANGE

FO 09-0010 OEX WORKLIGHTS

The OEX LED work light range is built and designed to offer supreme lighting in tough and rugged situations. Whether it is for commercial, agricultural or mining applications, the OEX LED range has a light for almost every application.

The entire range is rated at IP68 and come with polycarbonate lenses, dampened mounting brackets and tough aluminium housings so that they can withstand almost anything that is thrown their way.

The range offers 16 different lights that are either a single stack or dual stack configuration holding between 4 and 160 high output LEDs to maximise the light output on any jobsite.
